### General Comments

- Visit to the facility for an unexpected monitoring inspection
- Ratio was respected during the visit
- Toxic products, and cleaning supplies are locked and inaccessible to children
- Individual space is provided for diapers, creams and wipes for each child who is not toilet trained. The changing table is equipped with a safety strap and a non-absorbent layer. Changing area is separated from the food preparation and is located one meter or less from a sink. Children are always supervised during diaper changing.
- Personal belongings are to be labeled with the child's name and stored separately for each child.
- Outdoor play area is maintained safe and free of hazard and has at least 10% of shade
- Outdoor play space consists of more than one surface to permit different types of play and offers the children material that is varied and in sufficient quantity for all children present
- Each napping child has a cot or nap mat that is appropriate for their height
- There is a space of at least 46 cm between rest equipment and all nap equipment is washable and non-absorbent
- Each cot is stored so there is no contact with another napping equipment or are disinfected on both sides after each use

Observations: When arriving at the center it was nap time, all children were either a sleep or resting on their beds. Educators were assisting children that need a little extra help to fall a sleep or interacting with the ones who didn't need to sleep.
