Comments: Deficiency is now compliant			

### General Comments

Monitoring Inspection- COVID-19 Recovery Phase.

Upon arrival family member/ guardian is signing in and taking temperature to meet requirement for entering the building. Ensure thermometers and pens being used are being sanitized between users. Staff are confirming children have been screened for wellness and checking off on group log.

Discussed Group Logs with on-site manager . Date group established to be recorded each day as the date the group "bubble" was formed and not the current date. Date established will only change when a new child who was not previously in attendance starts.

Also discussed outdoor play area. Outdoor play area can be divided to accommodate 2 groups at one time as

## General Comments

long as 2 m distancing is created between groups.

For staff member (maintenance) who would be entering rooms on multiple licenses throughout the day, a community mask should be worn.

Discussed with educators, sensory bins containing materials that cannot be easily cleaned must be discarded daily (i.e. leaves and sticks). For infants, individual sensory bins (i.e for jello) that are cleaned and sanitized after each use are acceptable.

In all rooms, documentation posted, as well as materials available to the children reflect children's current interests and learning.

Educators observed to be very attentive and engaged in play with children.
