## General Comments

The children's learning environments were observed to be clean and well organized during the renewal inspection. Educators participated in the inspection process and they have established cleaning routines to meet COVID-19 protocols. Children were exploring the interest centers and engaging in activity. Educators were at the children's level and responsive to their needs and interests. Documentation in the rooms and posted outside of the rooms supports the children's experiences through learning. Many displays of the children's art creations and mark-making!

A balance of indoor and outdoor play was observed. Sensory opportunities in the infant outdoor play area are great additions and meet the guidelines for COVID-19.

The qualifications and training requirements are currently not being met as per Licensing Regulation 11(c) at a full-time early learning and childcare centre,  
(ii) on and after July 1, 2020,  
(A) a least 50% of educators must hold a one year Early Childhood Education Certificate or training that is equivalent in the opinion of the Minister.

Ensure that emergency contact lists in first aid bags are updated as new children join each group.

Be sure to add staff names and time in/out to Daily Group Logs when covering breaks.
