General Comments

Monitoring inspection completed today.

Children and educators were observed during indoor play. Some groups were enjoying outdoor play and walks during inspection.

The indoor environments were observed to be purposefully planned with a variety of materials offering choice for children. Educators engaged in play along-side children at their level. They responded to their needs and encouraged their efforts.

A variety of sensory valentine activities were offered for the children in all play environments.

Children's learning and recent activities are visible throughout the indoor play environments and outside the classrooms in the form of photo displays, webs, learning stories, and art work.
