General Comments

A Monitoring Inspection was completed this morning. Children were observed during inside play, snack, and transitioning to outside play. Children were observed washing their hands before and after snack. Transitioning to outside play was observed – educators helping infants with their outdoor clothing. Positive child guidance techniques were observed in all rooms – modeling and teaching appropriate respect for diversity, preparing children for transitions, ensuring adequate supply of appropriate equipment, materials, books, and toys, providing appropriate supervision, and using positive language when interacting with the infants. Educators were engaged – sitting with and taking part in play. Several forms of documentation were observed throughout the facility – photos, learning stories, webs, etc.
