Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments
QAM and Director discussed how the facility has worked to improve their implementation of Regulation 24(1)(b)(vii) Documentary evidence of children's learning. There are many photos, learning stories, children's art and other forms of documentation on display throughout the facility, for all classes. When educators and children co-construct the environment, you will see that some of the room decorations & materials are created together, children's work is highlighted on the bulletin board and the documentation explores several topics initiated by children and educators - for example in the 4-5 year old room they are learning about construction and sharks.
