Comments: The blue sofa has a large chunk missing from the seat, exposing the foam inside. Sofa must be removed as it is not easily cleanable. The purple chair has a tear in the fabric - must be repaired or removed.			

**General Comments**

QAM conducted a monitoring inspection however no one was onsite. QAM did a spot check of the premises. The educator and children had joined the other afterschool group at the Operator's other facility next door. All children's files were present and the children were recorded on the daily attendance records at the other location. Staff:Child ratios were respected.

Staff were aware of the sofa and purple chair being in disrepair. QAM discussed that compliance to Regulation 32 is demonstrated when all material, equipment and furnishings are in good repair and by conducting a routine inspection of toys and equipment and furniture. Materials, equipment & furniture are repaired or discarded once broken.
