

Early Learning and Childcare Facility Inspection Report

Type of Inspection:
Renewal Inspection

Pursuant to section 21 of the *Early Childhood Services Act*, operators of licensed early learning and childcare facilities must post their most recent inspection report in a clearly visible and prominent place in the facility.

Name of operator Northend Learning Center Inc.	Licence Number 2013611	Inspection Date July 03, 2025	
Facility Name Northend Learning Center 3		Telephone Number (506) 384-5437	
Address 96 Gorge Road Moncton NB E1G 1E6			
Name of Early Learning and Childcare Licensing Staff Veronique Berube		Position Title Quality Assurance Monitor	

Order for Compliance	Regulation	Date to be corrected	Date corrected
27 An operator of a licensed facility shall obtain the written consent of a parent or guardian of a child receiving services at the licensed facility before doing any of the following: (g) transporting or providing for the transportation of the child.	27(g)	Jul 03, 2025	Jul 03, 2025
Comments: In 1 of the 8 child profiles verified, the consent for transporting the child or providing transportation for school-aged children was filled out as non-applicable. The child is attending school and receiving transportation from school to the childcare center with their minivan. The administrator called the parent to obtain verbal consent to change the signed consent for school transportation. The Quality Assurance Monitor informed the administrator that the parent must initial the consent form in the child's profile when picking up their child from the center. Deficiency is now compliant			
30(3) An operator shall maintain the indoor play area of a licensed facility to ensure the safety of the children.	30(3)	Jul 03, 2025	Jul 03, 2025
Comments: While conducting the renewal inspection, the Quality Assurance Monitor observed in the classroom downstairs an electric baseboard that was broken. The cover was taken off, making the sharp edges inside a potential danger for the children. The baseboard was removed from the indoor play area and will be replaced at a later time. Deficiency is now compliant			
31(3) An operator shall maintain the outdoor play area of a licensed facility to ensure the safety of the children.	31(3)	Jul 11, 2025	
Comments: While verifying the outdoor play area, the Quality Assurance Monitor observed that the entrance door to the playground could not be closed properly. A bungee cord was used to keep the door shut, leaving a gap between the door and the fence. This is a potential danger for children as it doesn't close properly. The outdoor play area must be maintained safe and free of hazards. The Quality Assurance Monitor was informed that a fencing company has already been contacted to fix the fence in the upcoming weeks.			
40(1) An operator of a licensed facility shall ensure that personal belongings of a child receiving services at the licensed facility that are brought to the licensed facility, including combs, brushes, toothbrushes, towels, washcloths, bedding, pacifiers and soothers, are (a) labelled with the name of the child.	40(1)(a)	Jul 03, 2025	Jul 03, 2025
Comments: The Quality Assurance Monitor observed 4 bottles of water not labeled with the name of the child. Personal belongings must be labelled with the name of the child. The names were added to the bottles. Deficiency is now compliant			

General Comments

The Quality Assurance Monitor is on site to conduct the renewal inspection. The ratio was respected during the inspection.

When the QAM arrived on site, the children were finishing eating their morning snack and getting ready to go to the bottle and can redemption center to return the bottles and cans they collected during their annual fundraiser. The money collected will go towards buying materials, toys, or going on outings during the summer. The QAM observed the children eating their lunch, playing in the indoor play area, and playing with water outside to cool down. A group of children were also observed singing songs with a child playing the guitar.
