General Comments
<p>On the afternoon of my visit, children were engaged in a variety of different activities around the centre. Children were organized into Group C and Group D. One group went to the gym while the other group was in the main front space playing basketball, drawing and playing cards.</p> <p>The gym was very spacious and clean. Children were able to run and play. The educators played along with them and the children really enjoyed this. The noise level is managed very well with such a large, open space and children were allowed to be loud and play at the same noise level they would in an outdoor space.</p> <p>Fire Drill records have been recorded and are up to date. I also checked child files and they are well organized and complete.</p> <p>All staff under 19 were partnered with an older staff member. Older staff were the ones responsible for leaving the centre to pick up the children from school.</p>
