<p>General Comments</p> <p>Upon arrival to the centre, the educator high-fived the children as they came through the door. The children also initiated this as it seemed to be part of their daily routine when they arrive.</p> <p>The owner was onsite and in ratio for part of the afternoon. The other times he remained engaged with both staff and children, circulating to the different groups.</p> <p>After snack, groups went to the activity rooms, gym and some remained in the main space.</p> <p>In the main space, children had space to practice cartwheels. Other children were playing pool, card games, and chess. A game of football was being played in the gym and in the "Warehouse" children were taking turns on the go-carts. In both the gym and warehouse, educators take time to explain rules and expectations and safety precautions are put in place. In the Warehouse, children sit behind the tire track when go-carts are in use. If children need to get up to leave the space to get a drink of water or use the washroom, both go-carts come to a complete stop first.</p> <p>In the breakout room, children were participating in a number of different activities- coloring, Lego, hockey cards, and pool. There were some books that the children were really interested in- "Where's Waldo" and "Guinness Book of World Records."</p> <p>Positive child guidance was observed. Staff demonstrated respectful communication with the children and children were comfortable to approach staff and ask for help.</p> <p>The Emergency Evacuation and Fire Drill, Smoke Alarm, Smoke Detector and Fire Extinguisher Check form is being completed and is up to date. Weekly cleaning chart was observed and filled out. Daily cleaning was also observed during the monitoring inspection. The centre was well-maintained and clean.</p> <p>All required postings are well-organized on the parent board.</p>
