<p><b>General Comments</b></p> <p>Upon Licensing staff arrival, the first group of children were arriving. Educators were observed welcoming each child by name and attendance records were completed. Personal belongings were hung up and outdoor footwear was changed. Shortly after the first group settled in the main room, the second group of children arrived. Educators again welcomed each child by name and high fives were given. The Driver/Educator was observed ensuring everyone had exited all seats on the bus before leaving the front door to park.</p> <p>Once all groups had arrived, the children ate together at the tables in the main room. After lunch, personal belongings were placed in the coat room, tables were cleaned, and the floor was swept. During clean up, the children gathered in the gym for a group activity. The children were excited to play Trivia with questions about math, geography, and animals. After the group activity, half of the children remained in the gym to play a game of capture the rubber chicken and the other half went to the Warehouse for free play. Play material at the facility was organized and in good condition. In the main space, there is a basketball net with balls, floor hockey equipment, board games, air hockey, foosball, and a ping pong table. There is evidence of a daily routine and weekly schedule is posted. Educators were actively engaged with the children in both spaces and gentle reminders of hands-off play were heard. Later in the afternoon, a cleanup time was given before the groups went to go to the Gibson Neil playground. Water bottles, the attendance records, and first aid kit were taken along.</p> <p>During the inspection, child and staff files were verified and all required documentation was present. The parent board was organized and postings such as the evacuation plan, allergy alerts, monthly fire drills and cleaning checklists were visible. Children that left early were signed out by parents.</p> <p>Licensing staff recommends for renewal.</p>
