General Comments

The Quality Assurance Monitor is on site for a monitoring inspection.

The Quality Assurance Monitor verified the following:

- Washrooms
- Diaper changing
- Designation
- Daily routine
- Access to a licensed facility
- The outdoor play area and materials

The Quality Assurance Monitor had a discussion with the administrator regarding designation requirements. The administrator confirmed that the Quality Improvement Plan is current, and the operator is actively completing their required 10 hours of professional learning per renewal year.

The QAM observed the children playing in the outdoor play area. The operator made a road with chalk for the children to drive their cars on. The QAM also observed the children transitioning for lunchtime (lunchboxes). Positive interactions were observed between the operator and the children.
