<p>General Comments</p> <p>Renewal Inspection performed.</p> <p>*During my visit, as per PH Covid requirements, at my request the operator posted signage at the entrance advising of the screening process and entrance permissions. The operator is other wise following the June 24th Covid Recovery Phase Guidelines and checking temperature of staff in AM/PM and children's mid-day temperatures etc. Cleaning schedules are tracked. PH does recommend 1000ppm strength if using javex and water to clean and sanitize toys, equipment, hard surfaces etc.</p> <p>*Lots of staff on site, so child/staff ratio goes above and beyond - lots of supervision observed. Staff were also observed involved and interacting with children during outdoor play.</p> <p>*Please ask educators to include the children's last name on the infant toddler records. ty.</p> <p>*Children were observed playing outside. They have oodles of outdoor activities to participate in and lots of shaded areas to keep cool and away from the sun. Hopefully children will get outside again, however the forecast is hot and humid into the 30s this afternoon.</p> <p>*Protective surfacing under the rock climber must be maintained in a non compact condition. Please ensure staff are maintaining this weekly especially after a T-storm or heavy rain.</p>

General Comments

*From my observation, this facility is well operated - children seem happy and healthy, lots of programming observed and posted throughout the centre.
