Order for Compliance	Regulation	Date to be corrected	Date corrected

<p>General Comments</p> <p>Monitoring visit performed. No compliances observed today during my visit. Administrative records - attendance, fire drills, outdoor checklist, and all in order. The Operator will email a copy of the verified vaccination status of educator. The operator advised all staff have met the requirements. Appropriate child guidance observed. Educators are engaged with the children. Lots of conversation and interaction observed. They were assisted with dressing when getting ready to go outdoors. Covid protocols are being followed and staff are masking and the children are masking in common areas. The babies were enjoying making noise with bells, shaker bottles etc. They love the noises. They were also observed getting ready to go outdoors. The educators listen and respond to children when needed. The preschool age groups were playing on bouncy toys, playing in pairs or groups. All rooms are very inviting and purposefully planned, geared to children's interests. Programming posted throughout the facility and reflecting the goals of the curriculum framework. Lots of activities available to engage children in play experiences. The 4's educator is planning an olympic games event next week and making medals for the children. They are planning an obstacle course, snow shoeing and tobogganing events. Sounds like a lot of fun outdoor play.</p>
