General Comments
<p>Monitoring visit performed.</p> <p>Upon arrival all children were observed napping and the older preschoolers were involved in quiet play activities. Children were observed building with Lego and magnetic blocks, listening to a story. There was a learning story posted about building with magnetic blocks. I observed many children building towers with the magnetics. Other children who had woken from nap were experimenting with colors using flashlights.</p> <p>As per discussed with the operator the department does not recognize or license forest school programs. Licensing staff had a discussion with the operator saying that implementing some of the forest school practices is fine as long as it aligns with the Regulations under the ECS Act and follows the curriculum framework. If you have any further questions, please email your questions and I will forward to the department.</p> <p>All children were observed participating in a practice fire drill. The Operator documented the drill during my visit. Children were assisted getting ready for outdoor play after the fire drill.</p>
