Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments
Licensing staff arrived at the licensed facility to conduct a license renewal inspection.
Children washed up before having their snack and then washed up and went outside to play.
While outside the educators were observed engaging in play with the children.
Play materials were taken outdoors in a wagon. Licensing staff observed the children playing on the stationary equipment, playing with the instruments, that were built into the ground just outside the school exit, and playing with balls.
The educators used positive child guidance when faced with any challenging behaviours by the children. Redirection was used along with having conversations with the children and using "first/then" language.
Licensing staff recommends the facility for their license renewal.
