

## Early Learning and Childcare Facility Inspection Report

Type of Inspection:  
Renewal Inspection

Pursuant to section 21 of the *Early Childhood Services Act*, operators of licensed early learning and childcare facilities must post their most recent inspection report in a clearly visible and prominent place in the facility.

### General Comments

Licensing staff arrived at the licensed facility to conduct the annual license renewal inspection on September 17th, 2024.

When licensing staff arrived at the ELC Home, the children were engaging in a colouring activity before having their morning snack. After the children ate their snack, the children began free play activities before going outside to play.

When the school-aged children arrived off the bus, they came in and had their snack. Once the children were done eating their snack the children and the Operator engaged in an activity involving "Internation Dot Day."

The Operator is very kind and compassionate towards the children in her care.

Files are organized and complete with the required documentation.

The indoor play environment is very welcoming and has an abundance of play materials for the children to engage with.

Licensing staff recommends the ELC Home for renewal of license.
