### General Comments

Licensing Staff arrived at the facility to perform a Monitoring Inspection. The facility was bright, organized and welcoming upon arrival. The posting board contained all required information. The children's belongings were labelled, and the cubby area was tidy.

At one table a small group of children were observed playing with Play Doh while others were observed coloring and drawing pictures. One Educator was observed sitting with a group of children as they worked on a puzzle together. The Educator was heard offering words of praise as they completed the puzzle. Later in the afternoon the children gathered with their Educator and were observed reading stories, singing songs and engaged in activities. One group was observed packing their belongings before leaving the facility to go on a nature walk.

Transitions were smooth throughout the afternoon. The environment was calm, and the children appeared comfortable with the Educators and the daily routine. Only positive child guidance was observed during today's Monitoring Inspection. The Educators spoke softly with the children and were observed offering hugs. Current learning stories and the children's artwork were posted throughout the classroom.
