General Comments
<ul style="list-style-type: none"> - Visit done at the center for a monitoring inspection. - Ratio was respected during the visit. - Into the playground, the fence has been fixed. They are presently remodeling the big kids' playground; I recommend that they had more sand into the sand box because the one they have is packed. The younger children playground does have a small play structure, but no surfacing is necessary since it is lower than 2 feet. - I've seen learning stories posted in classrooms and in the cubbie space, I proposed to have an early learning consultant come into the center to bring support. Educators do not feel the need for it at this moment. - Orientation of the children was done in a respectful and positive way. - During the visit kids were playing outside, they came in washed their hands and had lunch. By the time I left the facility the little ones were asleep.
