Order for Compliance	Regulation	Date to be corrected	Date corrected
33(1) An operator of a licensed facility shall provide outdoor play area materials and equipment that are varied and in sufficient quantity for the number and ages of the children receiving services at the licensed facility.	33(1)	Nov 24, 2025	
Comments: The material outdoor is not varied and sufficient for the number of children attending. The outdoor play area should be an extension of the indoor play environment, providing many of the same opportunities, including space for creative, quiet, pretend and sensory experiences. A discussion was had with the operator, and a plan is in place to add materials and develop the outdoor space.			

General Comments
Visit to the facility to complete annual inspection. Ratio was respected during visit. School aged were not present as they are in school. Preschool children were in free play when I arrived. They had lunch and then went outside. They returned from outside with leaves they had picked and proceed to make a craft with the leaves.
