

Early Learning and Childcare Facility Inspection Report

Type of Inspection:
Monitoring Inspection

Pursuant to section 21 of the *Early Childhood Services Act*, operators of licensed early learning and childcare facilities must post their most recent inspection report in a clearly visible and prominent place in the facility.

Name of operator Creating Wonders Daycare Inc.	Licence Number 2014135	Inspection Date July 26, 2024	
Facility Name Creating Wonders		Telephone Number (506) 523-4434	
Address 203 Main St Rexton NB E4W 2A9			
Name of Early Learning and Childcare Licensing Staff Stephanie Hickey		Position Title Quality Assurance Monitor	
Order for Compliance	Regulation	Date to be corrected	Date corrected
31(3) An operator shall maintain the outdoor play area of a licensed facility to ensure the safety of the children.	31(3)	Jul 29, 2024	
Comments: During the monitoring inspection, the Quality Assurance Monitor observed some broken toys and some garbage in the outdoor play areas. The Quality Assurance Monitor reminded the administrator that the outdoor play area must be kept safe and free of hazards.			
33(2) Stationary equipment in the outdoor play area shall be surrounded by a protective surfacing and installed according to the manufacturer's instructions.	33(2)	Jul 29, 2024	
Comments: During the monitoring inspection, the Quality Assurance Monitor observed that the protective surfacing under the stationary equipment wasn't of an appropriate depth. The Quality Assurance Monitor informed the administrator that some wood chips must be added under the stationary equipment. The administrator explained to the Quality Assurance Monitor that the play area was not being used at the moment and they are waiting to get new stationary equipment and some wood chips would be added at the same time.			
36(3) The rest area of a full-time early learning and childcare centre and an early learning and childcare home shall be equipped with the following: (b) a cot or nap mat appropriate for the height of the child for each child who is at least 15 months of age and under five years of age who takes naps.	36(3)(b)	Jul 29, 2024	
Comments: During the monitoring inspection, the Quality Assurance Monitor noticed that a child was sleeping directly on the floor of the classroom. The Quality Assurance Monitor asked the educator if the child normally sleeps directly on the floor or if a mat is provided to the child. The educator explained to the Quality Assurance Monitor that children in her classroom normally don't sleep, but some children have just moved up from the other classroom and are not quite used to not napping yet. The Quality Assurance Monitor reminded the educator that a mat must be provided for children who wish to nap.			
9(1) The child-to-staff ratio is one educator for each of the following groups of children of the same age receiving services at a full-time or part-time early learning and childcare centre: (a) three infants or fewer; (b) five children or fewer who are two years of age; (c) eight children or fewer who are three years of age; (d) ten children or fewer who are four years of age or older, but who are not yet attending school; and (e) 15 school-age children or fewer.	9(1)	Jul 24, 2024	Jul 24, 2024

Order for Compliance	Regulation	Date to be corrected	Date corrected
<p>Comments: During the monitoring inspection, the Quality Assurance Monitor observed 2 infants sleeping in their classroom with no educators present. The Quality Assurance Monitor asked the administrator who was the educator responsible for the 2 infants. The administrator explained that the door was left open and the educator in the connecting room was doing checks every 15 minutes. The Quality Assurance Monitor informed the administrator that the 15 minutes check only applies when infants are sleeping in a crib. The Quality Assurance Monitor reminded the administrator that they must always have an educator present in the classroom while children are napping. The administrator stayed in the classroom with the infants until the educator returned from her lunch break. Deficiency is now compliant.</p>			

General Comments
<p>Monitoring inspection was conducted.</p> <p>While on site the Quality Assurance Monitor verified if all necessary information was posted in a visible and prominent place in the facility.</p> <p>During the monitoring inspection the Quality Assurance Monitor observed some children napping, some children were doing TIE DIE shirt and the afterschool children went to play outside.</p>
