### General Comments

The children were playing inside at time of inspection due to the freezing rain. Enrolment was low due to children being out with coughs. Operator stated that when children are sick, parent(s) keep them at home. Potential illness forms are being filled out as needed but the number of children that have had to be sent home is minimal.

The Operator's filing system is organized and all information was easily verified. Required documentation for licensing is accurate, complete and detailed.

Since last year's inspection, there is a noticeable enhanced quality in programming. The Operator is pre-planning based on the children's interests and is documenting the children's learning through pictures, artwork and learning stories. The operator has plans to add more learning centres in the children's play area in the next few months based on the New Brunswick curriculum Framework.

The Operator engages with the children at their level, redirects negative energy when needed and provides a loving and caring environment for the children in their care.

There are currently no napping children or the need for diaper changing, The Operator does not take the children on field trips nor does she transport the children.

This program was operating very well at time of visit and licensing staff can recommend facility for licensing.
