Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

Arrived to do monitoring inspection. Megan Munden was also present for the inspection. Observed snack time and reviewed infant daily sheets which were well maintained. Operator also uses a communication book for infants which writes more specifically about what infants have eaten.

Indoor play space was organized and clean with sufficient materials for children which were developmentally appropriate. Documentation of learning could be viewed throughout the room. Operator engaged with children on their level and allowed for open ended activities and flexibility in play. Positive child guidance and appropriate tone with children was observed at all times throughout visit. The children in attendance appear to have a close attachment with the operator and enjoy being close by her, seeking comfort from her when needed, all children were observed to be well adjusted to the home. Operator was flexible to meet the needs of the children, responding to their hunger cues and needs.

Observed children transition to outdoor play. One child struggled with this transition, redirection, singing and fingerplays could be utilized to distract this child from being upset about transitioning to outside. Transition from outside to inside was smooth and children went to the indoor play space and engaged in self-directed activities.
