Name of Early Learning and Childcare Licensing Staff Jenelle Hanscom		Position Title Quality Assurance Monitor	
Order for Compliance	Regulation	Date to be corrected	Date corrected

### General Comments

Indoor play area was well organized. Bins on shelves had pictures of the items that belonged in each bin which made it easier for children to find materials and for them to clean up indoor play area more independently. Materials were developmentally appropriate, varied and provided for a variety of play based activities. Front of heater detached and fell onto floor twice during the inspection, this heater should be repaired so that this will no longer be an issue.

Children enjoyed building with tracks and trains with the educator during the inspection. The educator was observed engaging with children on their level and helped to expand on their play by providing assistance, modeling and offering suggestions on how to use the materials.

Children's files were well organized and contained all documentation and signed consents.

Positive behaviour guidance was observed at all times.
