### General Comments

Children were waking from quiet time upon arrival of licensing staff. Home was well maintained, and indoor play area was well organized and allowed for a variety of play based learning opportunities. Infants were held by the operator and the operator and children had pleasant interactions throughout the inspection.

Documentation of learning has been completed. It is recommended that the operator build more on the interests of the children to add to their play-based experiences. The operator informed licensing staff that a new child was starting on Tuesday at the home.

The washroom was clean and organized with diapering materials stored separately and labeled for each child. All medications and toxics were locked by key in a separate cabinet.

The quality assurance monitor will continue to support the operator in connecting with resources.

Positive behaviour guidance was observed at all times.
