General Comments

Children were engaged in the indoor play area upon arrival of licensing staff. Indoor play area had been changed recently and now had a quiet, cozy corner with a curtain and books for children to sit and read and have some quiet time.

School age child was building a fort for the younger children which they enjoyed going in and out of. The youngest infant was able to practice standing at an infant toy car.

The transition to lunch was observed, the school age child provided assistance with the lunchtime routine for the younger children while the operator provided guidance, served the food and supervised.

Diaper changing was observed and appropriate diaper changing procedures and handwashing was observed.

After lunch the operator held the infant while bottle feeding him before quiet time. Infant information sheets were checked and are being completed daily.

Positive behaviour guidance was observed at all times.
