General Comments

Licensing Staff arrived at the facility to introduce themselves as their new Quality Assurance Monitor and perform a Monitoring Inspection. Upon arrival, the children were in the process of waking up from nap time. The Operator gave the children time to wake up before transitioning into the playroom for free play. The children were observed making salad and coffee in the play kitchen area. The children also were observed playing with cars and building a train track with a wooden train set. The Operator sat with the children and was actively engaged in their activities, often laughing and smiling with the children.

The Operator asked the children if they would like to go to the kitchen for afternoon snack. The children all had their own labelled water bottle and sat together as they ate afternoon snack. The children asked to have some music played as they ate. As they finished snack, the children enjoyed dancing in the kitchen, requesting different songs to sing and dance along to. Due to the warm temperatures, the children stayed inside for the afternoon.

The indoor environment was clean, organized and welcoming. The playroom offers a variety of materials for the children to explore such as cars, books, blocks, dolls and train sets. Only positive child guidance was observed during today's visit. The Operator was observed offering hugs and encouraging independence. Words of encouragement were heard throughout the Monitoring Inspection, "Great job, you did it!". Attendance records and Daily Information Sheets are being completed and were up to date.
