General Comments
<p>Visit to complete the renewal inspection today.</p> <p>The facility continues to operate a morning preschool program in addition to an after school program. Today, one preschool group was in attendance. It was evident that the children were enjoying their time engaging in play with their peers with the toys available and accessible to them. Preschool documentation in each bubble group supports the children's learning based on their interests. A variety of forms of documentation are being used within each group and educators are making connections to the NB Curriculum Framework.</p> <p>Props and materials are being rotated between groups because they are using shared space. Educators have a well-established cleaning and disinfecting process to ensure materials and equipment are ready for the next group.</p> <p>The facility is operating with 4 bubble groups of school age children this school year as per the COVID-19 grouping restrictions. Each group is documenting their programming as evidence of recent activities and experiences. The children have been participating in project work and science experiments. An educator also reported conversations with the children about kindness and the value in respecting relationships.</p> <p>Reminder: Be sure to add the date to all documentation.</p>
