General Comments
<p>Observed positive child guidance techniques. Educators were observed interacting at children's level and took interest in what they were showing or telling them. This has improved greatly since my last visit.</p> <p>A pre-planned program and the children's learning is being documented in several ways. Each educator was able to demonstrate learning in their classrooms. The operator is looking for ways to enhance the physical environment. The quiet area in the 2's room is a great addition.</p> <p>Educators are following appropriate managing illness guidelines and completing potential illness forms as required when children must leave due to illness. A notice to inform parent(s) was placed on the door for review prior to entry.</p> <p>Please be mindful of the expiry dates on Criminal / Vulnerable and Social development checks. They must be printed and put in staff files. Please forward missing documentation to inspector.</p>
