Comments: Deficiency is now compliant Ratio in all rooms throughout the facility were found to be in compliance with licensing regulations at time of follow up inspection.			

<p>General Comments</p> <p>When I arrived for today's follow-up inspection, all preschool children were observed playing outside in the facility's fenced in outside play space. The infants were inside playing freely around their room. Infant educators informed me that they were already outside this morning, as they normally start their day off outside for morning drop off. The infants ended up going outside again before lunch.</p> <p>While children were outside, educators were observed interacting with children at time of visit. Educators ensured they were constantly moving around the outside play space to ensure proper supervision. Infant educators were observed on the floor with the children engaging with them at time of visit.</p> <p>Observed lots of pictures and learning stories posted throughout the facility.</p>
