General Comments

Licensing Staff arrived at the facility to perform a Monitoring Inspection. Upon arrival, 3 Educators had walked to a nearby school to meet the children for the school dismissal while others arrived by bus. Personal belongings were put away as the children arrived on site. Once at the facility children were observed having afternoon snack before breaking into smaller groups for the afternoon.

One group transitioned into one of the classrooms where they were observed playing with a large dollhouse, coloring and playing card games. The other class stayed in the main room. A small group of children were observed playing a game of pool with an Educator while others played Uno and played with Lego. Later in the afternoon the classes transitioned to the gym area. The Educator announced they would be playing X-Tag and had the children break into groups of 3. Transition periods were smooth; all groups had the opportunity to spend time in the classrooms and the gym area for active games.

Staff and child profiles were reviewed and contained all required documents. Families were greeted as the children got picked up and children were signed out. Only positive child guidance was observed during today's Monitoring Inspection. The Educators were actively engaged with the children throughout the afternoon, sitting and playing card games and active games.
