General Comments

The Inspector is onsite to conduct the renewal inspection and observes children returning from a walk and engaging in free play indoors. The operator is interacting positively and responsively with the children. The Inspector also notes that children wash their hands prior to sitting down for lunch.

The operator informed the Inspector that the Early Learning Consultant was scheduled to arrive at 1:00 p.m. to complete the mid-year Quality Improvement Plan review. The Inspector did not remain onsite in order to allow the operator adequate time to prepare for nap time routines and the upcoming visit. All elements have been verified.

The ratio is respected during the renewal period.
