<p>General Comments</p> <p>The child ratio to Staff in Casual care was very high today. Educators engaged with the child in a positive manner. One educator was observed sitting on the floor with a child, playing with the child and asking questions about what they were playing with.</p> <p>Evidence of programming and curriculum is evident throughout the centre. Children's work is posted all over the walls, with write-ups or learning stories. There are pictures of children showing active play and learning in the facility. Educators are still working on a purposefully planned program stemming from children's interests and the administrator stated that they are going to begin to use webbing.</p> <p>Management of illness guidelines are being followed and appropriate forms are being used.</p> <p>Non reportable incidents and reportable incidents are being filled out properly and kept separately.</p> <p>The outdoor play space is snow covered and could not be inspected thoroughly. An inspection to occur once snow has melted.</p> <p>Filing system is organized and well maintained . All information was verified for licensing purposes.</p> <p>I can recommend for licensing.</p>
