**General Comments**

This was the continuation of the inspection from April 19, 2023.

The kitchen and sleep area has been cleaned up and organized.

The administrators have removed a lot of the plastic items out of the learning areas and have provided more definitive centres.

Postings have been completed.

Quality assurance monitor and inspector has conversations with the administrators regarding the documentation of children's learning and pre-planning where the children change daily. It is recommended that ideas for each day are written down and kept on file. More pictures of the children's activities could be posted around the classroom as a form of documentation. The Quality Assurance monitor has agreed to support the educators, going forward with this.

The outdoor play space is being prepared for summer. The administrators stated that shade will be put up and accessories will be added to the learning centres outside.

Licensing staff can now recommend facility for licensing.
