General Comments
<p>Quality Assurance Monitor was on site to verify ratios, supervision practices, incident logs and reports. Ratio was respected during the visit and QAM could see positive interaction between educators and children. Facility holds an incident log book in which minor incidents are properly recorded, documented and signed by parents so that they are well informed of any incidents that may have involved the child while at the facility. Administrator was advised by QAM to continue monitoring minor incidents via incident logs. Facility also holds a folder containing incident reports. Operator and staff will continue to make sure reportable incidents are properly recorded, documented and signed by parents.</p> <p>QAM had a discussion with the operator about the difference between incident logs and incident reports. It is recommended that the staff members review section 6.6 of the Operator's Manuel for more information on incidents.</p>
