Comments: In 2 out of the 8 child records file verified, the parent's signature for this consent was absent. The operator shall obtain a written signature from parents for all required consents.			

General Comments

Visit done at the center for a monitoring inspection.

Ratio was respected

During the visit, the Quality Assurance monitor verified:

- storage space for toxic products, chemical products and cleaning supplies
- Indoor play area materials and equipment
- Child record files and signed consent
- If all required documents are posted in a visible and prominent place in the facility

Indoor play area materials are varied and in sufficient quantity for all children present. All required documents are posted, and the spaces to store toxic products, cleaning products and chemical products is locked.

While QA monitor was on site, indoor play and snack time were observed.
