### General Comments

When I arrived, I was greeted by the Administrator who showed me around the Centre as it was my first time attending Serious Fun.

All rooms were engaged in play. It was raining heavily this morning, so the educators did some activities inside with the children. The infants did water play with bowls and scoops. The toddlers played with bubbles and did a painting activity using bubble wrap and the two-year-old group also did water play. There was also a lot of music, singing and dancing in all classrooms. Around 11:00 the children had lunch and then all rooms went down for a nap.

The rooms are clean and organized. The materials are easily accessible, on low open shelves, clean and in good repair. There are materials of different learning categories such as arts and crafts material, literacy, puzzles, dramatic play, and other loose parts such as blocks.

The children's drawings and paintings are posted on the walls in addition to photos of their families and other items such as learning materials for numbers and colors.

Positive redirection techniques were heard such as "no thank you" or walking feet".

Positive child guidance was observed such as gentle reminders, encouragements, and positive reinforcement.

The educators were engaged with the children, sitting on the floor with them, engaged in play, learning and in conversation with them.

The outdoor playground is in good repair and meets all regulations. There are different activities for the children to engage with, such as water tables, mud kitchens and sand boxes.

Everything is in compliance today, I recommend for renewal.
