Address 96 New Maryland Highway New Maryland NB E3C 1H6			
Name of Early Learning and Childcare Licensing Staff Joanne Voyer Page		Position Title Quality Assurance Monitor	
Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

Upon arrival, the babies and two's were in the outdoor play area. Just a reminder to supervise the babies closely as I indicated to one of the educators, that I noticed 1 baby putting pea gravel into their mouth. The educator immediately checked the child's mouth and removed a small pebble.

A few changes noted in the outdoor play area - the rockwall, rope ladder, and slide had been removed. It is my understanding there will be benches built with the wood that was removed and additional shade structure added. Two new sand boxes also observed and kept in good condition. The sand is loose and easy for the children to shovel and dig in. A cover for the storage bin is also recommended to keep toys and equipment protected from the elements. This does not need to be a heavy wooden cover. Children were playing inside the new playhouse. Children were also observed playing on ride on toys, playing with balls, scoops, spoons, loose parts and running through the tunnel and sliding down the small hill. The mud kitchen could use a small storage bin for the tools and equipment that go with this centre.

All programming rooms were inviting and nicely organized stations with low shelves that are easily accessible to children. I observed infant toddler records were not being completed after each diaper change. Educators indicated they document time and type of BM on the white board in the classroom and then this info is recorded on the paper record which is available for parents to look at.

Please replace the old Diaper Changing Procedures with the one located in Appendix 22. I noticed the procedures posted are from the old Daycare Facility Operator Standard Manual. Please review the changes with staff so they are aware.
