39(2) A licensed facility shall have a separate locked storage space that is inaccessible to the children for each of the following: (a) toxic products, chemical products and cleaning supplies;	39(2)(a)	Nov 29, 2019	
Comments:			

<p>General Comments</p> <p>On the day of my visit school was cancelled and the afterschool program was at the centre all day. The staff had arranged extra activities for the children which included letters to Santa. The room may need more resources that reflect the children's interests or to be set up differently so that 2 groups of boys could play lego at the same time.</p> <p>This class needs a new First Aid nap sac and a new First Aid check list, November's check was done. The toxic products need to be locked up under lock and key.</p> <p>The staff are very enthusiastic about becoming good educators and more mentoring and experience will help then reach this goal.</p>
