Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments
Children were getting ready for snack when licensing staff arrived. After snack the children had some free play time while the other children finished eating. Once all the children were done eating the operator read a story to the children. The book was called "Goodbye Winter, Hello Spring" Currently the children are interested in birds. The operator set up a bird feeder outside the window to see what type of birds will come. She has a bird book that they look through to identify the types of birds. This book is brought along on all the outings. After the story, it was time for outdoor play. The children showed participated in a wide range of activities in the yard from driving bikes and tricycles on the driveway and playing in the sandbox. The operator took the children for a walk to water tower and then to the park to play on the slide. The facility is clean and organized and there are a variety of age-appropriate materials and toys for the children. The operator is engaged with the children and responsive to their needs. Please update the parent board with my information.
