General Comments
<p>All children were observed playing outside when I arrived. The outside environment offers many different materials that encourage different types of play, for example school aged children were observed playing "4-square", playing basketball, playing on plasma cars, imaginary play in the wooded area. Preschool children were observed playing on the play structure, with the mud kitchen, in the sandbox, and playing in the grass.</p> <p>The facility's indoor environment offers a very bright and caring atmosphere for children to grow, learn and thrive in. The preschool and school age classrooms have an abundance of learning materials that meet the interests of the children.</p> <p>Observed children who do not normally sleep have free choice of quiet toys/activities to do while their friends rest.</p>
