General Comments

When I arrived, the children were outside playing. Some of the children were playing in the mud kitchen area and others were climbing the structures. There were also a few children playing with mud and searching for caterpillars.

Around 12:20, the children came inside and had lunch. During lunch staff were observed helping children open their lunch containers and were also sitting at the tables eating and talking with the children.

Following lunch, the children picked up their lunch boxes, washed their hands and had nap and/or quiet time. The children who did not nap, were provided with quiet activities.

The school age children arrived at 3:00 pm. The educator met them at the bus stop outside, counted the children and they all walked inside together. The kids then sat together in a circle, and they decided on activities to do as today is Kids Free choice. One group played with Legos, one group painted, one group played a game, and one did bracelets. There is also a Junior Leader Board where each child has the opportunity to be junior leader for the day and help the educator with age-appropriate tasks.

The educators were observed talking to the children in a respectful manner and using positive child guidance such as positive reinforcement, gentle reminders and redirecting as needed.

The indoor space is clean, organized and well equipped. There are materials in all mandatory categories such as literacy, math, and science.

The outdoor space was inspected and meets all regulations.

The files were inspected and are organized and contain all required information.

I recommended for the renewal.
