24(1) For the purposes of subsection 20(1) of the Act, the following records and documents shall be maintained on the premises of a licensed facility: (b) child records that include: (iv) the name, address and telephone number of at least two individuals authorized by the child's parent or guardian to pick up the child and to be contacted in case of an emergency if the parent or guardian cannot be reached, Comments: Observed child files with missing emergency contact information.	24(1)(b)(iv)	Aug 07, 2020	
39(2) A licensed facility shall have a separate locked storage space that is inaccessible to the children for each of the following: (a) toxic products, chemical products and cleaning supplies; Comments: Observed toxic products high/out of reach of the children, and other toxic products in a cupboard with a child safety lock on it. Toxic products must be kept under lock and key.	39(2)(a)	Aug 07, 2020	

<p>General Comments</p> <p>Operator promotes an environment that encourages positive and independent behavior by involving the children by giving them responsibility and letting them help themselves, all while providing adequate supervision. Observed operator using positive language with children and respecting their feelings.</p> <p>Outside play space consists of natural play material which the operator has made herself, much of it with the help of the children. Children loved that they were able to pick out their own book for the operator to read to them from their "outdoor library" and also loved that the operator read them their choice of book in the boat!</p> <p>Please be sure to turn over or rake protective surfacing to be sure proper depths are maintained, it is recommended that this be done weekly. The proper depths for mulch and pea gravel is 30cm (12 inches).</p>
