Order for Compliance	Regulation	Date to be corrected	Date corrected
39(2) A licensed facility shall have a separate locked storage space that is inaccessible to the children for each of the following: (a) toxic products, chemical products and cleaning supplies;	39(2)(a)	Dec 01, 2020	Dec 01, 2020
Comments: Deficiency is now compliant When inspecting the bathroom for toxic products the licensing staff noted that bottles of Javex were unlocked sitting on top of the washer and dryer but out of reach of the children. Operator did move the Javex bottles out of the area where the children are.			

General Comments

During a monitoring visit licensing staff observed very positive child guidance as well as wonderful documentation of curriculum.

The everyday toxics were locked up with a very heavy duty lock but it was observed that the lock had the key in the lock and licensing staff recommended that the key not stay in the lock. It was also observed that bottles of Javex were on top of the washer and dryer way up high. The Operator immediately removed these jugs of Javex out of the area where the children are.

All staff documentation are up to date.

Our visit with the Operator and the children was lovely.
