General Comments

A monitoring inspection was completed today. The learning environments were organized, inviting, and well thought out. Room placement supported children's independence and engagement, with materials accessible and intentionally arranged. Clear bins containing materials such as cars helped children easily identify and access resources.

Children were observed actively engaged in meaningful experiences throughout the inspection. Several children were using playdough and a car track while others were making dragon puppets.

The outdoor environment was also well supported with a bin containing a variety of materials, including bubbles, rackets, and golf equipment A reminder was provided to staff to ensure the mulch is raked under the stationary equipment, slides and swings regularly to maintain a safe and inviting outdoor play space.
