Order for Compliance	Regulation	Date to be corrected	Date corrected
21 The daily activities of a licensed facility shall be purposely planned in advance and documented and shall respond to the capabilities, needs and interests of each child.	21	Feb 10, 2023	
Comments: Educators have a calendar however the educators must demonstrate that planning is a process that involves engaging the children and reflecting on the children's interests, passions, strengths and abilities. The group of children began to lose interest in the scheduled activity and therefore the educator must ensure that short and long term plans are flexible and fluid, to allow for a different pace when needed by either the children or educators. The QA Monitor explained that there must be more activities and even free play available to accommodate emerging interests and unanticipated events. They must also: <ul style="list-style-type: none"> • focus on individuals or small groups of children; and • emphasize a strength based approach. The educators must use a planning tool to record their observations, in doing so the daily program will reflect that it incorporates the interests of the children and allows for spontaneous activities.			

General Comments

No one onsite when the QA Monitor arrived. A staff member and a group of children arrived at 2:50pm. When the rest of the children and staff arrived, all children have snack followed by indoor and outdoor activities.
