Comments: During the renewal inspection, inspector verified all the children's files. 1 of the 15 files verified has a listed allergy indicted by the parents that was not posted on the allergy posting located in the food preparation area. Administrator adds this information immediately. Deficiency is now compliant.			

General Comments
<p>Inspector was onsite to complete the renewal inspection. The afterschool children are at the center for the full day as it is March break. Inspector observes children play freely in the large classroom drawing, reading, assigned computer class time and playing with building blocks. An ongoing experiment teaching the children about preservatives with bread was displayed on the wall that the children were excited to explain.</p> <p>In the afternoon, the children went outside sliding near their outdoor play area. Positive interaction is observed throughout the renewal inspection between the educators and the children.</p> <p>Ratio is respected during the renewal inspection.</p>
