General Comments

The inspector is on site to conduct a renewal inspection. During the inspection, the inspector observes free play, transitions, and children leaving the premises for an outing.

The inspector observes that the part-time daily routine is posted in a visible and prominent location within the facility. As the after-school children are attending for a full day on the day of the inspection, the inspector discusses with the administrator the importance of posting the full-day routine. The routine is posted before the inspector's departure.

The child-to-staff ratio is respected throughout the renewal inspection.
