General Comments

During the time of the inspection, inspector observed that protective surfacing was missing underneath the climbing domes (which requires protective surfacing in accordance with the manufacturers instructions) . Administrator indicates that the children do not currently have access to these structures and are not permitted to use them until protective surfacing is added. Signs have been placed on the climbing domes to indicate that they cannot be used.

Inspector observed children engaged in their activities, such as group games and crafts. Ratio was respected while inspector was on site.
