General Comments
<p>The Quality Assurance Monitor is on site for the renewal inspection.</p> <p>During the renewal inspection, the Quality Assurance Monitor is present during indoor play and outdoor play. The Quality Assurance Monitor observed the staff members engaging with the children through their play.</p> <p>The Quality Assurance Monitor had a discussion with a staff member regarding the foamy, green water present in the ditch surrounding the outdoor play area. This concern had previously been addressed by another Quality Assurance Monitor and a Public Health inspector. The operator must ensure that children do not have access to or play in this water. The staff member confirmed that children do not engage with the water, and noted that several small wooden bridges are used by children to cross the ditch and access the other side of the play area.</p> <p>The ratio is respected during the visit.</p>
